Why Manual Is Better. Most manual transmission drivers will tell you that the reason that they like driving manual is because it feels like real driving. With a manual car (or stick shift in the US) you have total control of the vehicle, you're more involved with the mechanics of the car and will find that it's an entirely different type of drive to that of an automatic.

### Manual vs. Automatic Car Transmission: Which is Best?

It's a common belief that automatic cars aren't as good on fuel economy as manual cars. This is largely because automatic cars shift gears depending on what it thinks is appropriate for the road and speed. On the flip-side, having more nuanced control of a manual car means you can better adapt to the road.

One thing that's helping automatic transmission catch up is the wider use of continuously variable transmissions (CVTs). Now, to be clear, the mechanics of CVTs differ from those of automatic transmissions, but for drivers, the operation is the same: You put the car in drive and go. Unlike manual and automatic transmissions, which have a fixed set of gears (and a fixed set of ratios), CVTs can ...
