Rated 1 out of 5 by Aims from Not Fragrance Free This has been one of my holy grails for a couple of years. However, the last jar I bought a couple of weeks ago reeks of fragrance. My skin is now reacting to this gel for the first time and is itchy and irritated--exactly as it reacts to fragrance products.

An example of an unusual symptom scientifically is a red face or blushing. When your face turns red from anxiety, it can sometimes be embarrassing, and other times be downright confusing. While red face may be a medical condition of some kind, some people do find that anxiety is what is actually causing their flushing.

Red Face; Anxiety can also cause your face to reddened. This is caused by dilation of the capillaries in the face. Red face/flushing is generally fairly temporary, though it can last for a few hours or more. A redder face is a visible symptom of anxiety, but not one generally associated with anxiety. Pupil Dilation

Infectious diseases experts are remaining calm despite the persistent surge of COVID-19 cases across the country. One of Australia's best known professors throughout the pandemic, Professor Peter Collignon says vaccines are clearly doing their job. "I'm reasonably calm because we're not seeing the uptick in hospital admissions and death, particularly not in the vaccinated people," [...]
