Car Engine Overhaul

Car Engine Overhaul. When a car's engine begins to sound 'funny', when it idles, while it is accelerating, or as it turns off, then you may need an engine overhaul. Even smoke billowing from the exhaust pipe, or if your car runs too hot, it could spell serious engine damage. It is hard to say without a check-up from a reputable auto service centre like Super Tune, but you just may need to take your engine apart, clean it up and replace any damaged engine parts or seals, and then put it ...

Low Engine Oil Level. Your engine oil pump circulates motor oil through the engine, lubricating the internal moving parts. Over time, the engine can consume, burn or leak oil. If the oil level gets too low, you can have a situation where the oil pump sucks air into it and the air gets pumped through the engine along with whatever oil is remaining.

Why Your Car Is Making a Rattling Noise, and What to Do
Admittedly, 230,000km is a high mileage for any car. It will not be long before an engine overhaul or some major work becomes necessary. Mileage aside, other signs that your car needs an engine overhaul include increased fuel consumption, bluish-white smoke from the exhaust and high engine oil consumption.
