You can sort this list by the average customer review rating as well as by the book's publication date. If you're an Amazon Prime member, you can get a free Kindle eBook every month through the Amazon First Reads program.

Cardiovascular Disease Clinical Medicine In

In this trial, 27,564 patients with cardiovascular disease and LDL cholesterol levels of 70 mg per deciliter or higher on statin therapy were assigned to either evolocumab or placebo. At 2.2 years,...

Evolocumab and Clinical Outcomes in Patients with ...

Aims: To appraise the clinical and genetic evidence that low-density lipoproteins (LDLs) cause atherosclerotic cardiovascular disease (ASCVD). Methods and results: We assessed whether the association between LDL and ASCVD fulfils the criteria for causality by evaluating the totality of evidence from genetic studies, prospective epidemiologic cohort studies, Mendelian randomization studies, and ...

Low-density lipoproteins cause atherosclerotic ...

Cardiovascular disease (CVD) and depression are common. Patients with CVD have more depression than the general population. Persons with depression are more likely to eventually develop CVD and also have a higher mortality rate than the general population. Patients with CVD, who are also depressed, ...

Depression and cardiovascular disease: a clinical review

In medicine, the proper distinction between sex and gender effects is usually unachievable which is why these are often compiled for clinical purposes. 49 Sex- and gender-specific CVD research has led to a new understanding of the pathophysiology of coronary disease in women, which includes, but is not limited to, our conventional understanding ...

Cardiovascular Disease in Women: Clinical Perspectives

Cardiovascular disease (CVD) is a class of diseases that involve the heart or blood vessels. CVD includes coronary artery diseases (CAD) such as angina and myocardial infarction (commonly known as a heart attack). Other CVDs include stroke, heart failure, hypertensive heart disease, rheumatic heart disease, cardiomyopathy, abnormal heart rhythms, congenital heart disease, valvular heart ...
