The categorical imperative is the central philosophical concept in the deontological moral philosophy of Immanuel Kant. Introduced in Kant's 1785 Groundwork of the Metaphysic of Morals, it may be defined as a way of evaluating motivations for action. According to Kant, sentient beings occupy a special place in creation, and morality can be summed up in an imperative, or ultimate commandment of reason, from which all duties and obligations derive. He defines an imperative as any ...

Main Principle's of Kant's Categorical Imperative - Term Paper

Abstract. Since Kant published the Groundwork more than two hundred years ago, the concept of the categorical imperative has been under such scrutiny that one might be tempted to consider the subject exhausted. Using the categorical imperative of Law as a catchword I would like to counter this temptation by drawing attention to an as yet little-noticed aspect of the concept.
