Financial Markets

A financial centre, financial center, or financial hub is a location with a concentration of participants in banking, asset management, insurance or financial markets with venues and supporting services for these activities to take place. Participants can include financial intermediaries (such as banks and brokers), institutional investors (such as investment managers, pension funds, insurers ...

Financial centre - Wikipedia

Finance is a term for the management, creation, and study of money and investments. Specifically, it deals with the questions of how an individual, company or government acquires money – called capital in the context of a business – and how they spend or invest that money. Finance is then often divided into the following broad categories: personal finance, corporate finance, and public ...

Developing countries were hit hard by the financial and economic crisis, although the impact was somewhat delayed. Every country had different challenges to master. The closer the developing countries are interconnected with the world economy, the crasser the effects. And the incipient recovery that is becoming noticeable is, for the time being, restricted to only a few countries and regions ...
