### Harley Davidson Fluid Change Guide

Glycol-based brake fluid needs changing at regular intervals as recommended by Harley® for your bike. For most riders, that's every 1-2 years. If you use DOT 5 you can go longer between changes. You can tell it's time with a tester or by checking the color of what's currently in your system.

Ideal conditions would be a constant light load under dust free, fairly dry humidity and constant mild temperatures. Since none of us ride in conditions like that, I change MY oil, transmission gear lube, and primary chaincase fluid more frequently. About every 3k miles for all three. I also change my plugs then too. TQ
