Nursing assessment is an important step of the whole nursing process. Assessment can be called the “base or foundation” of the nursing process. With a weak or incorrect assessment, nurses can create an incorrect nursing diagnosis and plans therefore creating wrong interventions and evaluation. To prevent

Pearson Education

A simple solution to this problem is to introduce a paradigm shift to teaching the HEENT examination by using the “HEENOT” approach.

Incorporating “O,” for oral cavity assessment, adds a comprehensive focus on the oral-systemic history and examination of the teeth, gums, mucosa, tongue, and palate.
