Introduction to Beekeeping - The Bee Centre

Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in man-made hives, by humans. Most such bees are honey bees in the genus *Apis*, but other honey-producing bees such as *Melipona* stingless bees are also kept. A beekeeper (or apiarist) keeps bees in order to collect their honey and other products that the hive produce (including beeswax, propolis, flower pollen, bee pollen ...

Beekeeping - Wikipedia

Beekeeping is a fascinating and profitable activity, but before you get into beekeeping, you must consider the first and foremost issue: bee sting. If you or someone in your family has allergies to bee stings, beekeeping might not be the best choice.
