The earliest data visualizations were
likely physical: built by arranging stones
or pebbles, and later, clay tokens.
According to an eminent archaeologist
(Schmandt-Besserat, 1999): "Whereas
words consist of immaterial sounds, the
tokens were concrete, solid, tangible
artifacts, which could be handled,
arranged and rearranged at will.

Early Boats . The first mode of transportation was created in the effort to traverse water: boats. Those who colonized Australia roughly 60,000–40,000 years ago have been credited as the first people to cross the sea, though there is some evidence that seafaring trips were carried out as far back as 900,000 years ago.

A week is a time unit equal to seven days. It is the standard time period used for cycles of rest days in most parts of the world, mostly alongside—although not strictly part of—the Gregorian calendar.. In many languages, the days of the week are named after classical planets or gods of a pantheon. In English, the names are Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday ...

Server job market Understanding the server hiring process. While many other industries use applicant tracking systems (ATS), most restaurants still hire servers the old-fashioned way: a hiring manager reviewing paper resumes tries to determine who can handle the job best. To succeed, it's crucial that your server resume shows quickly and concisely that you have accumulated the industry ...
