The adoptive family will agree to the adoption plan until after the adoption is final, and then will deny any contact between the birth parents and the child. Birth parents who place their child for adoption will never see the child again. Men and women who choose to place their child for adoption must go through an adoption agency.

LET'S LEARN TOGETHER 5 What makes adoption different? Development The neo-cortex or 'thinking' brain continues to develop into adulthood. It processes information from both the brain stem and the limbic system. When children experience abuse, neglect or abandonment at an early age, fear and stress flood the brain stem and/or limbic systems.
