US Navy Radio Communications - 1950's & 1960's

The U.S. Navy in the Cold War. World War II had proved that the battleship, the main weapon of sea forces during the first half of the 20th century, was no longer the decisive fleet element because of the ascendancy of air power, both land-based and carrier-based. The heavily armoured, heavily gunned, but relatively sluggish battleship had no real utility within navy task forces and fleets ...

Navy Cold War Communication Context Resources Associated ...

The United States Navy, its warships and aircraft--and above all its sailors-- guarded the ramparts of the containment wall from the beginning of the so-called "Cold War" to its victorious end. Soon after Stalin pressed Turkey and Iran for territorial and other concessions in 1946, Truman dispatched battleship Missouri (BB-63), an unmistakable symbol of American military power, to the Eastern ...
