### Nikon D5100 Guide: Autofocus settings / AF-area mode ...

By Julie Adair King . Scene modes on a Nikon D5100 are designed to capture specific scenes in ways that are traditionally considered best from a creative standpoint. For example, most people prefer portraits that have softly focused backgrounds. So in Portrait mode, the camera selects settings that can produce that type of background.

### Exploring Scene Modes with a Nikon D5100 - dummies

In A mode you choose the Aperture, and the D5100 chooses the shutter speed. S Mode: Shutter Priority . In S mode you set the Shutter, and the D5100 sets the aperture. If the D5100 runs out of available apertures, you easily can get under or over exposure in S mode: watch that the D5100 can select a correct aperture for your lighting. M Mode: Manual Exposure . In Manual mode, you have to set everything the hard way.
