Karl Popper is generally regarded as one of the greatest philosophers of science of the twentieth century. He was also a social and political philosopher of considerable stature, a self-professed critical-rationalist, a dedicated opponent of all forms of scepticism and relativism in science and in human affairs generally and a committed advocate and staunch defender of the "Open Society".

Contract Law - Question given by lecturer and my answer.

Research has shown that curiosity (the experience of novelty and surprise) is a form of intrinsic motivation that is the key in fostering active learning and spontaneous exploration. Intrinsic motivation refers to doing an activity simply for the fun or enjoyment of the activity itself, rather than because of external products, pressure, or reward.
