openSX70 - Manual Exposure for Polaroids!

All Polaroid, Polaroid Originals and Impossible i-Type cameras have some kind of exposure compensation, whether it's a dial, a knob, a slider or a wheel. So, when should you be using it? In most cases, your camera will make its own best assessment of your environment using a built-in light meter, and will usually do a pretty good job creating a balanced exposure.

How do I use my camera's lighten ... - Polaroid Support

What defines a manual Polaroid camera? Well, they are fully manual, meaning no exposure help, auto or assisted, and no auto-focus (which none of the pack film cameras has, while most integral cameras do). You set your aperture and shutter speed and you focus through the rangefinder. Simple as that.
