John Cooper Works (JCW) is a British car marque now owned by BMW and used on its Mini vehicles. It was founded in 2002 by Michael Cooper, son of John Cooper, the racing car maker and tuner responsible for the original Mini Cooper.. In 2007, German automaker BMW acquired the rights to the name, and it bought out the company in 2008.

The fluid in the Mini's CVT is a "lifetime" fill from the factory, but many agree that it is prudent to perform a regular fluid change to increase transmission longevity and avoid a costly transmission failure. This article will outline how to replace the transmission fluid on R50 Mini Coopers equipped with a CVT.

The 1.5 three cylinder could use a more powerful BMW tune that would see it rise to 137 hp and 170 lb-ft of torque. Then there's a series of 2.0 four cylinder that could also use various BMW tunes: 170 hp and 206 ft-lbs and 218 hp and 265 ft-lbs. rumors point to the JCW output remaining the same and continuing to offer a manual as standard.
