If there is an undocumented reconciling item, review the bank reconciliation process steps just noted. If there is still an undocumented variance, go back to the bank reconciliations for the preceding periods and see if the variance arose in a prior period. If so, investigate the earlier periods to locate the difference. Step 9.

Bank reconciliation process – AccountingTools

A good option for working on larger projects is to place a stitch marker after every tenth row. This will allow you to count your rows in 10's rather than stopping after every row to click a counter, tap an app, or make a tally mark. You can simply count your rows in groups of 10 and place markers at the end of every tenth row.
